Comment Form

Give Us Your Input!

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that still need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

Comments:

Water holding capacity is a major concern. Storage areas that eliminate ag ground is another. The benefits of this project needs to encompass more than Urban needs. The storage of run-off has to happen to save ag land from flood damage + also to keep water from being wasted due to heavy flows passing in winter months + not enough water for use in summer + fall!

Use additional sheets if necessary.

Please clip out this form, fold, staple and return to:

CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

All comments will be immediately forwarded to CALFED technical staff and comments relating to the draft programmatic EIS/EIR will be addressed in a response to comments document.
